♦ At least 18 hours ≥ C (not C-) required in courses fulfilling the core requirements. No more than 45 hours of COMP courses will count toward graduation.
 (#) Required preparation, a first formal course in computer programming (e.g., COMP 110, COMP 116).
 (##) Six additional COMP courses numbered 426 or higher (excluding courses for honors thesis, internships, independent study, and COMP 690). Any single offering of COMP 590 may be counted toward this requirement without prior approval. Additional offerings of COMP 590 may be counted toward this requirement with the approval of the DUGS. Beginning in the 2016-17 academic year, graduate level courses (600 or higher) other than COMP 790 may be counted towards this requirement. COMP 790 courses are generally seminar courses that are not appropriate for this requirement and may only be counted with the approval of the director of undergraduate studies. Up to two courses from other departments may also be used to satisfy this requirement. These courses must be approved by the DUGS and must have a significant computer science or computing technology component. A list of previously approved courses is maintained by the department.
